

# RANGER PORTRAIT

Shelli Nahari  
Israel Nature & Parks Authority

## Main duties:

- disease control
- monitoring species and habitats
- anti-poaching
- visitor management

## Why is your work important to you?

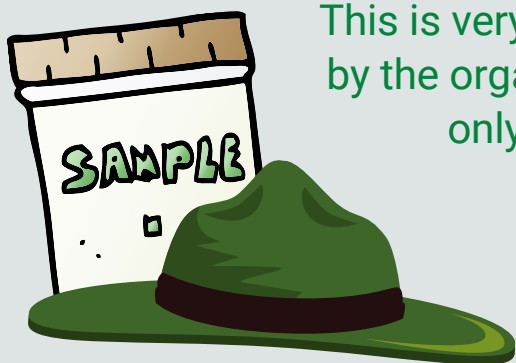

Firstly, I like to work outside and be in a different place every day. I know where my day starts, but not where it ends. And I like that a lot. It is a very dynamic job.

## What is your greatest motivator even when it's hard working out there?

Doing something I really believe in. I believe that I can make a difference. As long as I get up every day with a smile when I think about going to work, I think I am in the right place.

## Your biggest moment of luck during work?

This is very simple: it was the day I was accepted by the organisation as a field ranger. I knew they only interviewed men, so I was kind of shocked and overjoyed to be accepted.
